of Warsaw University of Life Sciences – SGGW

&

**THE JOINT CONFERENCE
„Strategies for Bioeconomy in CEE countries”**

organized by
Department of Bioeconomy and Systems Analysis – BIOECON
of Institute of Soil Science and Plant Cultivation – IUNG-PIB

Aim of conferences

III International Scientific Conference „Economic Sciences for Agribusiness and Rural Economy” will be again a platform for the exchange of the scientific community views with practitioners, both from Poland and abroad. Our research and discussion interests focus on the changing needs of the economy, this year with particular emphasis on bioeconomy and its strategic options for Poland, the Central Eastern European (CEE) countries as well. For this reason a joint conference organized by IUNG-PIB funded by the H2020-WIDESPREAD-BIOECON project is parallel to the event.

One of the conference panels will be dedicated to the discussion among young scientists – doctoral students. This panel will be a continuation of the Scientific Conference "Challenges of the modern economy in the perspective of young scientists", organized annually since 2014.

Conferences' topics

- ◆ Adaptation processes of enterprises in conditions of implementing the principles of sustainable development.
- ◆ Transformations in agriculture and food economy in European countries.
- ◆ Agricultural markets in the era of integration and globalization.
- ◆ Policy towards agriculture and rural areas.
- ◆ Human and social capital in local and regional development.
- ◆ Impacts of the financial sector on agriculture, food industry, rural areas.
- ◆ Logistics as a factor in the development of the economy.
- ◆ Strategies for bioeconomy in Poland and the CEE countries.
- ◆ Sustainable agriculture for bio-based economy.
- ◆ The state and deployment of bioeconomy in Poland and the CEE countries.
